Handblown Glass Urns

Elegant. Distinctive. These vibrantly colored urns are encased in a layer of clear glass and handcrafted in the Czech Republic by Bohemian glass artisans. Each urn is handblown, therefore, the pattern and color may vary slightly. The variations as well as the presence of tiny bubbles are normal and give each urn a unique look.

NATURAL STONE

 *Due to the properties of natural elements, variances in color may occur.

Natural stone urns offer the elegance of natural beauty combined with the visual interests of color and texture variety. No two pieces are alike, and natural variations of color and design will occur. These are not flaws, but are indicative of the way that naturally-occurring stone develops in nature. Our alabaster, jade & marble urns are a stunning representation of your loved one, and offer a peaceful addition to your home décor or niche.

alabaster urns

Alabaster is a natural stone known for its special color, texture, streaks and translucent properties. Resembling marble, but softer in texture, alabaster can easily be worked into various shapes. Once considered to be a semi-precious stone, fine grained alabaster has been used for centuries for statuary, carvings and other ornaments. Made in Spain.

BIOTREE: HOW IT WORKS

- Add cremated remains to the base of the Biotree Urn.
- Plant a sapling using the provided tree certificate or work with a local nursery to grow a tree from a seed.
- Just add water. No need to add soil, and the Biotree will treat the cremated remains.
- Watch a loved one become a tree. Biotree Urn may be kept inside until it begins to crack, then it is time to plant the urn.
- The Biotree Urn and cremated remains are returned to nature as the tree grows.
- Using the included tag, the location of the tree can be geotagged and families can create an online memorial to share with friends and family.
